The committee on streets, alleys and grades is called to meet at 7 o'clock this evening to consider the question of widening McCulloch street by means of a retaining wall.

Yesterday the police were notified to look out for a white setter dog, stolen by a colored man at Sistersville. A man and a white setter dog were found here, but proved to be the wrong ones.

There will be a very good exhibit of school work at the State Fair this year. Space near the fountain has been set apart for the schools. The work will be arranged on Thursday afternoon and Friday.

Yesterday was one of the warmest days of this very warm season. A good breeze was astir most of the time, and the signal flag said local showers, but the rain did not materialize to amount to much.

The new electric light arrangement in the Opera House is one of the most decided improvements ever made in that theatre. The interior now looks as bright as a whole paper of new pins.

"The White Squadron" will be the attraction at the Grand Opera House for three nights, commencing Thursday. This play is too well known to need any praise, as it has been seen here before. THE CITY COUNCIL

Transacts but Little General Business at its Meeting.

THE NEW CITY HOSPITAL IS A GO.

The Ordinance for Graveled Streets on the Island Thrown Out Because of Irregularity in Form—The Collector's Settlement—Financial, Street and Water Matters Make up the Remainder of the Budget.

The city council got together about 8 o'clock last night, with a quorum in each branch, and got down to business at once, the first thing done being the granting of liquor licenses, one for a new saloon in the Eighth ward and the other for a beer agency. Bills were ordered paid on recommendation of the various committees, as already given in the INTELLIGENCER. The health committee's bills aggregated in all \$1,205.71. The resolution giving the committee power to go ahead with the erection of the new city hospital was adopted and the resignation of Health Officer Walden accepted by the second but not by the other, as narrated elsewhere.

An ordinance to amend the ten-cent levy appropriation for the island, so as to do away with paved streets and use gravel, was ruled out of order for faulty form.

A resolution by Mr. Halme that the water board ascertain what was the cause of frequent complaints of residents of the Eighth ward as to the water supply, was referred to the board. Mr. Halme said the water pipes acted as a conductor of electricity from the street railway power house.

A petition to open a part of Jacob street on the South side was referred to the committee on streets, alleys and grades, and a resolution by Mr. Kern asking the board of public works to clear out the obstructions under the Main street bridge so as to allow the free passage of the current, was referred to that board.

In the first branch Mr. Davison presented a resolution calling for an estimate of the cost of a retaining wall on McCulloch street to hold up the sliding ground so as to allow the street pavement to be widened ten feet where the wooden curb has been placed. After some discussion this was referred to the board of public works and committee on streets, alleys and grades with power to act.

The remainder of the session was taken up with the consideration of the health officer's resignation and a few minor routine matters.

An Extensive Tour.

Early in the summer Col. John Bodley, Major William H. Esley, Mrs. Bodley and son left Wheeling in a two-horse wagonette on a summer tour eastward. Their tour has developed into larger proportions than was originally intended. From Wheeling their route was over the National pike to Cumberland and thence through the eastern part of this state, via Romney, down the Shenandoah Valley to Hagerstown, then through the Cumberland Valley in Pennsylvania and over the famous Lancaster pike to Philadelphia. From Philadelphia the party proceeded northward, and the latest advice are dated from a little town in northern New York. The intention is to proceed to Boston. The time of the return to Wheeling was not stated.

Zion's Church Improvements.

Yesterday the new pipe organ for the Zion's Lutheran German church arrived from Springfield, Mass. It came over the Wheeling & Lake Erie road and required an entire car to transport it. It weighs about 10,000 pounds. The organ will be set up at once. The freeholders have got done with their work, which is very fine. The scaffolding was taken down yesterday. A large colored window is to arrive this week. It represents the Ascension, and will be one of the finest windows in any Wheeling church.
